Each zip-file is also followed by a corresponding PGP-signature file (.sig) for an additional verification; my PGP-key for that reason is also provided (a file-name):

dimitri_khalezov_retaliation_PGP_key_for-verification.asc

You could find these 4 zip-archives on my web sites such as (each file will be followed by its checksum to verify its integrity and its authenticity):

www.911-truth.net/
www.911thology.com/
www.dkhalezov.com/

Typical direct download links from each web site could be calculated as follows:

www.911thology.com/dimitri_khalezov_retaliation_1.zip
www.911thology.com/dimitri_khalezov_retaliation_1.zip.sig

Please, get these zip-archives and keep them securely + share with others along with corresponding checksums and PGP-signatures (.sig files).

These encrypted archives contain highly sensitive information capable of damaging the Kingdom of Thailand (where I currently live) in the most serious manner. If anything wrong happens with me, my friends will retaliate for me by publishing passwords to decrypt these four encrypted zip-archives.
