

My dear friends and supporters!

I am glad to inform you that I was recently released from the Thai prison and am now free. However, my freedom is a bit “conditional”. The Thais could throw me back to the prison under any pretext, or, worse, they could throw me into their immigration prison, where I could spend the rest of my life, because I am a so-called “stateless person” and can not be deported anywhere, while the Thai immigration prison serves the Thai authorities and their U.S. masters as the de-facto and de-jure concentration camp.

As you probably remember, I prepared my original “retaliatory archives” (numbers 1, 2, 3, and 4) a long time ago and they supposed to be used to punish the Thais for throwing me into their prison or for killing or “suiciding” me, as well as for any attempt to deport or to extradite me.

In May 2014, Thai security officials stole some important legal documents from my case-file in their supreme court (it was the old case dragging on from 2003, which was jointly instigated against me by the Israelis, Americans, and by their Thai flunkies; the actual setup was organized by Mike Harari, acting under aliases of “Doctor Haji Mohammed Husseini”). Once the Thais stole the said documents from the case-file, they created a situation where I could be thrown into their prison once again (it was not enough for them that I spent more than one year in their jail in 2003-2004). And indeed it happened. I was sent to their prison for one year in May 1, 2014.

My friends, who held the passwords to the original archives, were supposed to release them as a punishment for the Thais. However, these friends of mine were not tough and determined enough to do the job (the thing to be revealed was too bad and too dangerous for both – the state of Thailand and for my life, because presumably the Thais would kill me for revealing such a thing). In addition to this, the Freemasons managed to plant on me several of their operatives in disguise of “new good friends” and these “new good friends” did their best to thwart the job and thus saved the Thais from the due punishment.

After long deliberations, the archive No.3 was eventually opened, but its contents were distributed quite slowly and half-heartedly, so that their distribution did not cause much damage to the Thais (far less than it was designed by me). Since the passwords to the archive No.3 were not actually revealed, but its opened contents were rather distributed, not too many people from among those who originally downloaded the retaliatory archives of mine got acquainted with the materials either.

This failure was very bad to my reputation. At the very minimum, it caused me to lose face (before that I was known as the “man who always does what he promises”, but due to the failure to release the promised passwords some people might start doubting it now). In addition, it might get many of my sincere friends and supporters annoyed (due to their expectation to get the passwords was in vane) and so cause them to lose interest in me and in my efforts whatsoever.

Actually, I lost quite a few of my former close friends and sincere supporters, who stopped contacting me, or “distanced” themselves from me, or became otherwise “cold” when communicating with me. That is how much that imprisonment cost me.

On the other hand, the failure of my friends to distribute the passwords back in 2014 could be considered as good luck for me. Because after their distribution, the Thais would probably kill me – because the damage I would cause to them would be unacceptable and also irreparable. But now I am still alive, thanks God.

Moreover, some people from among those who saw the original contents of the archive No.3 (some limited number of people got the passwords to it, still) claimed that the way I presented the things there was supposedly “not convincing”.

Well. I learned from my mistakes. Therefore, once I was released from the prison and got my freedom (I omit here the exact details how I actually got my freedom for security reasons), I hid from everyone in a very secure location, turned off all my mobile phones, so that no cop could trace me, and spent the next two months for diligently reviewing my own retaliation materials and compiling them in a way that is “more than convincing”.

As a result, now I have three new archives No.3. Now they are called “3a”, “3b” and “3c”. Each of them would be enough to destroy the government of the Kingdom of Thailand for sure (and, perhaps, even the Kingdom of Thailand itself, in addition to its government). It is no longer the “threat to the national security” as was the case with my former retaliatory archive No.3 – now it is the “*death* to the national security” of the Kingdom Thailand.

The password release procedure now is made more efficient either. Should I disappear, or be killed, or die, or “commit suicide”, or lose my freedom in any manner for longer than 3 days, quite a few people around the world would release all the passwords to my new archives at once. The situation of May-June 2014 would not be repeated.

Therefore, I ask all my friends and supporters. Please, forgive me for what happened in 2014 (do not forget that I personally had little to do with it – I was helpless inside the Thai prison without any communication with the outside world, and the actual job

was not done by me, but by my friends, some of whom came under the direct attack by the Freemasonic agents, who tried to thwart my retaliation program and so to save the Thais), and, please, help me by participating in my security program again. Please, download and keep my new archives and watch for the development – if the passwords are published (and *this time* they *would*, should anything wrong done to me by the Thais), get them, open the archives and retaliate for me by distributing and promoting their contents.

For the meantime, however, I sincerely ask EVERYONE who might have hold of the materials from the old archive No.3 of mine. Since now I am no longer in prison, you don't have to display that information on the Internet. It no longer helps me, but rather damages my position and endangers my life and my freedom. Please, REMOVE as soon as you can ALL that information and ALL TRACES of it from anywhere in the Internet and DO NOT publish it again until the time I am really killed, thrown into the prison, or disappeared (in that case you would get the passwords to the new archives where the info is presented in a much better way). I request that you not only abstain from publishing any info from my former retaliatory archive No.3 (in case you got that info in one way or another), but even abstain from discussing it in any manner in a form of comments on the Internet – be it under my YouTube videos, or under my 9/11-related articles, or anywhere else.

I repeat one more time – this information was originally intended to DESTROY the government of the Kingdom of Thailand and to worsen the security of the Thai state to the extent of endangering the very existence of the Thai state and possibly causing a civil war in this country; nothing less than that. That is how sensitive the information really is. Of course, it was so prepared by me to duly retaliate against the Thais for my possible death or for my possible imprisonment. But now, as I am no longer in prison, no such information shall be distributed or even discussed, because it unnecessarily endangers my life and gravely worsens my position in dealing with the Thai authorities. Please, pay a serious attention to my request! If you know this info, please, keep it strictly to yourself. Do not enlarge the circle of those “initiated”.

Anyway, since my freedom and my life are still in danger, I have no choice than to stick to my previous method of keeping the Thais in check. That is exactly why I prepared the new retaliatory archives (that for sure would do a much better job than my former archive No.3) and I sincerely request you to download and keep them and so to help me to protect my freedom and my life.

Below there are plenty of download links and alternative download links to the three of my new retaliatory archives – numbers “3a”, “3b”, and “3c”, as well as their checksums. The latter are required to verify their authenticity, because you could never know if the archives were not falsified by my enemies – the checksums could help to make sure that the archives are firstly from me, and, secondly, they were not corrupted during downloading and during initial extracting. Information inside these archives is extremely sensitive and my enemies know what is inside and how dangerous it is for them. So, they could easily arrange for my archives to be falsified and uploaded instead of the genuine ones. That is why the verification procedure is a MUST. Once you download the archives, the first thing you should do is to compare their checksums with the checksums that I showed in my YouTube video (where I hold a paper with the checksums printed).

Please, download all three archives and (after verifying their checksums) keep all three of them! The first of them (“3a”) contains the actual information. The other two (“3b” and “3c”) contain videos of myself where I explain this information.

The archives are quite big this time, because they contain a lot of material (as I have said, I spent these two months since my release for making this information “killing” rather than “not enough convincing” as was the case with my original retaliatory archive No.3). The first two archives are almost 1Gb and the third one is almost 1,5Gb. Therefore, to make it easier to download, I cut each of the archive into ~100Mb parts using WinRAR archiver. You should download each part of each archive and run the first (“executable”) part to extract and assemble the respective archive together. Instructions on how to do it are enclosed with the actual downloaded parts, but this is pretty easy anyway – just put all RAR parts into the same location and double-click the first file of each series and it would do the job automatically.

These 100Mb parts of the three archives are uploaded to a few different file-sharing services, as well as to my own hostings – www.911-truth.net and www.911thology.com

Parts uploaded to different services are completely interchangeable – i.e. if you download some parts from one service, and some parts – from another service or hosting, you will still be able to assemble the entire archive.

Please, try to download as much as possible from the file-sharing services, and as little as possible – from my own hostings – www.911-truth.net and www.911thology.com – to save my monthly limits on downloading.

Please, accept my apologies for any inconvenience caused and my thanks for your help and support, for you patience, and for your participating in my “security program”.

Sincerely yours,
Dimitri.

May 31, 2015.
Bangkok.

Here are the checksums and the file-sizes for the three new retaliatory archives:

"dimitri_khalezov_retaliation_3a.zip"

the file's size: 923 Mb (968,843,551 bytes) [actual size on a harddisk might differ]

MD5 : 5FFC60A4A6A9E5EE0A1A7155C73BCDED

CRC-32 : 1A553D8E

"dimitri_khalezov_retaliation_3b.zip"

the file's size: 0,97 Gb (1,051,307,635 bytes) [actual size on a harddisk might differ]

MD5 : 45105F986062F41D23430EAE79A9E03

CRC-32 : 3AF81A11

"dimitri_khalezov_retaliation_3c.zip"

the file's size: 1,40 Gb (1,510,479,127 bytes) [actual size on a harddisk might differ]

MD5 : 1F73DC394D7EFE18C01FA30CA9ABBF42

CRC-32 : 11C226E4

A program-calculator for the checksums is included with the actual downloads – you will get it when you finish extracting from the “outer” RAR archives. In case you managed to download the “whole” zip archives rather than the cut RAR parts of 100Mb each, the hash calculator would be missing. However, you could always find it on the Internet by googling for “DAMN_hashcalc” or for “DAMN_hashcalc v1.5.1”. For example, you can download it from here: <https://yadi.sk/d/nD5N1Pg4eXE6i>

In addition to the MD5 and CRC-32 checksums, each of the three “inner” zip-archives is supplied with a PGP-signature file, which too could be used for the verification purposes (but in the latter case you must have the PGP program installed and know how to use it, so the checksums are much easier way to do).

Download links (the first group – only for the parts of 3a, the second group – for the parts of 3b, the third group – for the parts of 3c; try to use mediafire, file-upload, and share-online services first, please, and the rest of the links – only in case if nothing else works):

The archive named "dimitri_khalezov_retaliation_3a.zip" was cut into 12 parts, which could be downloaded from here:
